

# A6 Brochure 4pp

(210mm x 148mm)

## Artwork Guidelines

(Landscape)

### Bleed Area: 216mm x 154mm

Extend your background to fill the 'bleed area'. This will make sure you don't end up with white edges when your flyer is trimmed.

### Trim: 210mm x 148mm

This is where we aim to cut your flyer.

### Safe area: 204mm x 142mm

Keep all the important information of your design - text, logo, icons - inside this safe area.

### NEED HELP WITH TEMPLATES?

or go to Live Chat.

Our team is ready to assist you.

Bleed Area: 216mm x 154mm

Trim: 210mm x 148mm

Safe Area: 204mm 142mm

### DO

- Edit and save your file in CMYK colour mode.
- Outline your text before saving (select all of the layers, click "type" in the menu, select "create outlines").
- Background colour/images must bleed to the edges of artboard

### DON'T

- Flatten your layers or image before saving - it can reduce your print quality.
- Do not scale the artboard
