

# A5 Flyer (148.5mm x 210mm)

## Artwork Guidelines

### (Portrait)

**Bleed Area: 154.5mm x 216mm**

Extend your background to fill the 'bleed area'.  
This will make sure you don't end up with white edges  
when your flyer is trimmed.

**Trim: 148.5mm x 210mm**

This is where we aim to cut your flyer.

**Safe area: 138.5mm x 200mm**

Keep all the important information of your design  
- text, logo, icons - inside this safe area.

**DO**

- Edit and save your file in CMYK colour mode.
- Outline your text before saving (select all of the layers, click "type" in the menu, select "create outlines").
- Background colour/images must bleed to the edges of artboard

**DON'T**

- Flatten your layers or image before saving - it can reduce your print quality.
- Do not scale the artboard
