Bleed Area: 105mm x 216mm

Trim: 99mm x 210mm

Safe Area: 89mm 200mm

# DL Flyer (99mm x 210mm) Artwork Guidelines

**(Portrait)**

**Bleed Area: 105mm x 216mm**
Extend your background to fill the 'bleed area'. This will make sure you don't end up with white edges when your flyer is trimmed.

**Trim: 99mm x 210mm**
This is where we aim to cut your flyer.

**Safe area: 89mm x 200mm**
Keep all the important information of your design - text, logo, icons - inside this safe area.

## DO

- Edit and save your file in CMYK colour mode.
- Outline your text before saving (select all of the layers, click "type" in the menu, select "create outlines").
- Background colour/images must bleed to the edges of artboard

## DON'T

- Flatten your layers or image before saving - it can reduce your print quality.
- Do not scale the artboard
