

Sticker (148mm x 105mm)

Artwork Guidelines

Bleed Area: 154mm x 111mm

Extend your background to fill the 'bleed area'. This will make sure you don't end up with white edges when your sticker is trimmed.

Trim: 148mm x 105mm

This is where we aim to cut your sticker.

Safe area: 142mm x 99mm

Keep all the important information of your design - text, logo, icons - inside this safe area.

DO

- Edit and save your file in CMYK colour mode.
- Outline your text before saving (select all of the layers, click "type" in the menu, select "create outlines").
- Background colour/images must bleed to the edges of artboard

DON'T

- Flatten your layers or image before saving - it can reduce your print quality.
- Do not scale the artboard
